About

I am an Artificial Intelligence and Data Science student with a strong interest in understanding data and uncovering meaningful insights that support better decision-making. I enjoy exploring patterns, trends, and real-world problems through data analysis and visualization. My passion lies in transforming complex data into clear, actionable information that helps organizations improve performance and achieve their goals. I am continuously learning new tools and techniques in analytics and enjoy applying them to solve practical business challenges.

Education

Chaitanya Bharathi Institute of Technology, Gandipet	2023 – 2027
B.E in Artificial Intelligence and Data Science - 3rd year	
CGPA: 8.61/10	
T.T.W.U.R.Jc Boys, Peddamandadi	2020 – 2022
Intermediate (MPC) – 90.5%	
T.T.W.U.R.Jc Boys, Peddamandadi	2019 – 2020
SSC – 95.0%	

Technical Skills

Programming Languages	Python, Java, JavaScript, SQL, R, HTML5, CSS3
Artificial Intelligence	Artificial Intelligence, Machine Learning, Deep Learning, Generative AI, Large Language Models (LLMs), Computer Vision, AI Agents, Multi-Agent Systems, Prompt Engineering
AI/ML Frameworks	TensorFlow, PyTorch, scikit-learn, OpenCV, NumPy, Pandas, Matplotlib, Hugging Face, OpenAI API, AutoGen
Data Analytics	Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualization, Predictive Analytics, Customer Behavior Analysis, KPI Analysis, Business Metrics
Business Intelligence	Microsoft Power BI, Dashboard Development, KPI Reporting, Power Query, DAX, Business Intelligence, Business Reporting
Full-Stack Development	HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, REST APIs, Responsive Web Development
Backend Development	Python, FastAPI, Flask, Node.js, Express.js, RESTful API Development, API Integration, Microservices
Databases	MySQL, MongoDB, SQLite, SQL, NoSQL, Database Management, Database Design, CRUD Operations
Software Engineering	Object-Oriented Programming (OOP), SDLC, Agile Methodologies, Software Testing, Debugging, Code Optimization, Technical Documentation
Core Computer Science	Data Structures & Algorithms, Design & Analysis of Algorithms, DBMS, Operating Systems, Computer Networks, Computer Architecture
Developer Tools	VS Code, Google Colab, Jupyter Notebook, Postman, Streamlit, Git, GitHub, MS Office

Projects

CloudSentinel – Autonomous Zero Trust AI Firewall

- Developed an AI-powered Zero Trust cloud security platform using Python for continuous authentication, anomaly detection, and intelligent threat analysis.
- Implemented ML-based risk scoring, automated security alerts, access control, and secure cloud data protection.

SonicX – AI Event Rescue & Smart Surveillance

- Developed a Computer Vision and Deep Learning system using Python and OpenCV for real-time fire, smoke, crowd, and emergency detection.
- Built a Streamlit dashboard to visualize detected events and generate automated emergency alerts.

DEW – Drive Engage Walk-together

- Developed a full-stack ride-sharing application using React Native, Node.js, Express.js, MongoDB, and Google Maps API.
- Built REST APIs for authentication, ride management, GPS tracking, user services, and CO₂ tracking.

Business & Social Media Analytics Dashboard

- Analyzed business and social media data using Python and SQL to identify trends, customer behavior, and key performance indicators.
- Built Power BI dashboards to monitor CTR, CPC, ROI, engagement, and campaign performance.

RedRob – AI Candidate Ranking System

- Developed a Python-based AI recruitment system for automated resume analysis and candidate ranking using Machine Learning.
- Implemented data preprocessing, feature extraction, candidate scoring, and automated evaluation workflows.

ExpenseOwl – Personal Finance Tracker

- Built a finance management application for tracking expenses and spending patterns using database-driven workflows.
- Implemented authentication, data management, reporting, and financial analysis features.

Experience

AI Developer Intern – Viswam.AI (Link)	June 2025 – July 2025
Data Analytics And Science Intern – Future Interns (Link)	Aug 2025 – Sept 2025
Web Developer Intern – The Developer Arena (Link)	Nov 2025 – Feb 2026

Certifications

- Salesforce – Agentforce Specialist
- Deloitte – Data Analytics
- Microsoft – Power BI
- MongoDB – Building AI Agents with MongoDB
- IBM – Data Analytics & Business Intelligence Workshop
- HackerRank – SQL (Advanced)
- Adobe India Hackathon 2025

Positions of Responsibility

Volunteer and Head of Department – Chaitanya Spandana CBIT	Jan 2023 – Present
PR and Social Media Head – Ramanujan Math Club CBIT	Apr 2025 – Oct 2025
